HARD SKILLS

- Project Planning & Execution
- Project Scheduling & Monitoring
- Site Coordination
- Bored Pile & Deep Foundation
- Foundation Testing
- QA/QC Management
- Engineering Software & Drafting
- Method Statement Preparation
- BBS & Quantity Take-Off
- Shop Drawing & IFC Review
- Interior Fit-Out & Finishing
- Snagging & Handover

PROFILE

Civil Engineer with 9+ years of experience in residential, industrial, and infrastructure projects in Thailand and Myanmar. Experienced in deep foundation works, bored piling, and site supervision. Strong in project coordination, QA/QC, and HSE. Familiar with ASTM standards and able to manage site operations, resources, and project delivery on schedule.

PROFESSIONAL EXPERIENCE

Site Engineer / Project Coordinator

Oct 2024 – April 2026

CHRISTIANI & NIELSEN DCM Thai Public Co., Ltd

Phuket, Thailand

Project:

❖ **BANYAN TREE RESIDENCES PHUKET (9 Luxury Villas & 3
Condominium Buildings)**

- Managed construction activities for luxury villas and condominium buildings, coordinating over 500 site personnel, subcontractors, and support staff across multiple project phases.
- Collaborated with the project management team to deliver luxury villa and condominium developments.
- Coordinated civil, structural, and architectural works while integrating MEP systems.
- Reviewed and implemented shop drawings, method statements, IFC drawings, and construction schedules prior to execution.
- Enforced QA/QC inspection procedures and resolved non-conformance issues in line with specifications.
- Evaluated project costs, material usage, and workforce productivity to maintain cost efficiency.
- Facilitated coordination meetings with consultants and stakeholders to address technical issues.
- Oversaw interior fit-out, finishing works, snag rectification, and handover activities while maintaining HSE compliance.

Key Achievements

- Improved site productivity through effective manpower deployment.
- Delivered structural works on schedule with zero critical NCRs.
- Reduced material waste and rework through proactive site supervision.
- Successfully completed snag rectification and handover.

SOFT SKILLS

- Effective Communication
- Problem Solving
- Team Collaboration
- Conflict Resolution
- Adaptability

CERTIFICATION

- Revit (Architecture & Structure) Advanced
- AutoCAD 2D/3D – Intermediate & Advanced
- Project Planning & Control
- Microsoft Project
- Primavera P6
- Advanced Microsoft Office
- Bar Bending Schedule (BBS)

SOFTWARES

- AutoCAD 2D/3D
- Revit (Architecture & Structure)
- SketchUp
- Primavera P6
- Microsoft Project
- Microsoft Excel, Word
- Power Point, Outlook

EDUCATION

- ❖ **Diploma in Civil Engineering**
Technological University
Pakokku, Myanmar.
2009 - 2011

LANGUAGES

- English – Upper Intermediate
- Thai – Basic
- Myanmar – Native

PROFESSIONAL EXPERIENCE- CONTINUED

Project Engineer

Jun 2015 – Jan 2024

STECON Engineering & Construction

Yangon, Myanmar

Project:

- ❖ **P-1695-EXPANSION 1.5M (C404) - HEINEKEN BEER**
- ❖ **SAGAING FUEL ETHANOL FACTORY**

- Executed installation of **773 bored piles** following approved method statements.
- Supervised deep foundation works including bored piling, sheet piling, and strutting systems.
- Assisted the Project Manager in project scheduling, work breakdown structure (WBS) development, and milestone monitoring.
- Liaised with consultants, clients, and subcontractors to address engineering issues and strengthen project coordination.
- Prepared and reviewed shop drawings, Bar Bending Schedules (BBS), and quantity take-offs for procurement and cost monitoring.
- Performed routine site inspections, resolving engineering discrepancies while maintaining QA/QC documentation.
- Supported progress evaluation, subcontractor assessment, and interim payment certification.

Key Achievements

- Delivered 773 bored piles using 2 piling rigs, including ASTM D1143 static load testing and PIT (ASTM D5882).
- Achieved on-schedule completion of foundation works through effective supervision and resource coordination.
- Maintained zero Lost-Time Incidents (LTI) during construction works.

BANYAN TREE RESIDENCES – Site Progress Vs Rendered Design
